¹: The numbers of *Salmonella* on Day 0 indicate the infectious doses of FD436, N-RM4, N-RM25 and R-NM29 inoculated to mice in each group. They do not represent the number of bacteria in the liver plus spleen.

²: All mice in Groups 1 and 2 were euthanased or died by Day 6 and Day 8 post-inoculation, respectively.

³: No *Salmonella* were isolated from the livers and spleens of mice in Group 4 throughout the nine-day observation period.

¹: Vaccination: Group 1 – single low-dose, 2 – double low-dose, 3 – single medium-dose, 4 – double medium-dose, 5 – single high-dose, 6 – double high-dose. Refer to Table 8.2 for detailed vaccination and challenge infection information.

● : Mice euthanased due to clinical signs of salmonellosis and from which the challenge strain was isolated using quantitative culture.

○ : Mice that survived challenge infection and from which the challenge strain was isolated by enrichment only.

● : Mice that survived challenge infection and from which *Salmonella* was not isolated.

FIGURE 27

¹: Vaccination: Group 1 - N-RM4, 2 - R-NM29. Refer to Table 8.3 for detailed vaccination and challenge infection information. n: number of tested mice.

- : Mice that died before challenge infection and from which the corresponding vaccine strains were isolated using quantitative culture.
- : Mice that survived challenge infection and from which the corresponding vaccine strains were isolated by enrichment only.
- : Mice euthanased due to critical illness and from which the challenge strain was isolated using quantitative culture.
- ⊙: Mice that survived challenge infection and from which the challenge strain was isolated using quantitative culture.
- : Mice that survived challenge infection and from which the challenge strain was isolated by enrichment only.
- : Mice that survived challenge infection and from which *Salmonella* was not isolated.

BEST AVAILABLE IMAGES

Defective images within this document are accurate representations of the original documents submitted by the applicant.

Defects in the images include but are not limited to the items checked:

- ☒ BLACK BORDERS
- ☐ IMAGE CUT OFF AT TOP, BOTTOM OR SIDES
- ☒ FADED TEXT OR DRAWING
- ☐ BLURRED OR ILLEGIBLE TEXT OR DRAWING
- ☐ SKEWED/SLANTED IMAGES
- ☐ COLOR OR BLACK AND WHITE PHOTOGRAPHS
- ☐ GRAY SCALE DOCUMENTS
- ☒ LINES OR MARKS ON ORIGINAL DOCUMENT
- ☐ REFERENCE(S) OR EXHIBIT(S) SUBMITTED ARE POOR QUALITY
- ☐ OTHER: _____

IMAGES ARE BEST AVAILABLE COPY.

As rescanning these documents will not correct the image problems checked, please do not report these problems to the IFW Image Problem Mailbox.
